

## Work format

group work

## Needed time

20 minutes

## Required tools

smart board

internet

laptop/tablet/smart phone for kids

## Task

Organize groups of 3-4 students. Invite one student from each group to the teacher's desk. Show the students images of food, at least three. After the students have memorized the images, they return to their group and describe what they remember. The rest of the group then generates the image.

## Competencies to be developed

memory, teamwork, prompt engineering, creativity
